## ***Exceptional*** Musicians

The Helix Ensemble is a flexible group of experienced players from the East Midlands that was formed in 1992.

Our programmes aim to explore rarely performed chamber or small orchestral works combined with more traditional items. The Helix Ensemble has introduced a variety of contemporary works, and premiered a number of pieces by composers in the region.

The Helix Ensemble has won 2 Performing Rights Society Awards for its innovative programmes.

*"... What mattered was the balance and moulding of the phrases so that every motif was audible. Likewise the care over the dynamics from the opening pianissimo to the forte of the transfiguration moment itself."*

*"The 22 strings, an ideal number, excelled themselves".*

*"... the dynamic contrasts and the excellent Helix strings, left a happy impression."*

*Friendship is a key part of its success in creating a warm and supportive Environment for intensive rehearsal.*

*Professional musicians are invited to direct and coach every concert.*

*The variety of approach and ideas is stimulating to both the players, audience and professional Musicians alike.*

*From the outset, Helix has had a special atmosphere...*
